[LIVE MASTERCLASS] [SYSTEM: A-Z FRAMEWORK]

# The Major AI Mindset

## From Overwhelm to Leverage in 60 Minutes

AI isn't about replacing people. It's about amplifying human potential.

NotebookLM

## Chasing Tools

- Focuses on the newest app.
- Requires deep technical backgrounds.
- Creates rapid context switching and fatigue.

***Result: Intimidation & Overwhelm.***

## Building Mindset

- Focuses on friction points in your workflow.
- Uses plain-language instructions.
- Adapts to any platform update.

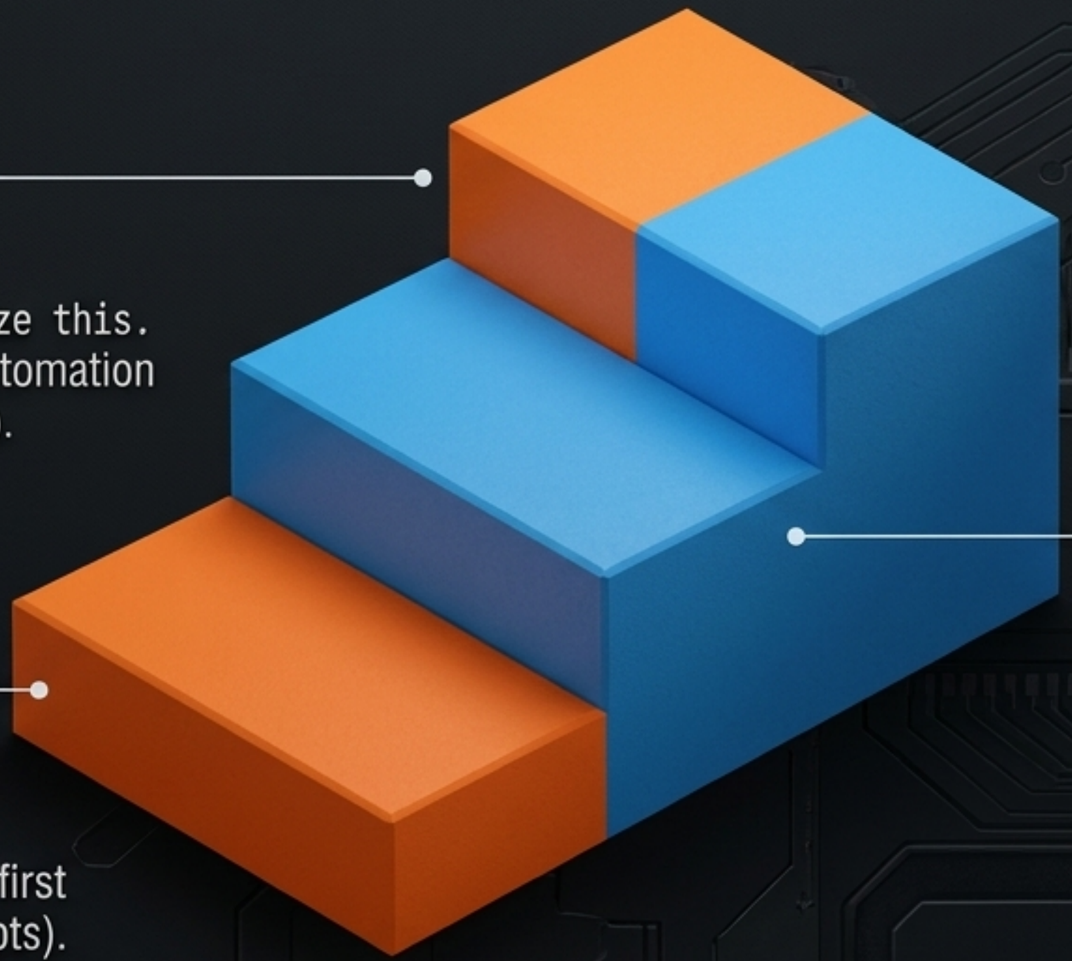

***Result: Leverage & Confidence.***

>> DROP A "1" IN CHAT IF YOU'VE EVER FELT OVERWHELMED BY AI UPDATES

NotebookLM

# The **Cognitive Scaffolding** Model

Bloom's Scaffolding applied to LLM Literacy

## Expert Tier

**Design**

You can systematize this. (Focus: Strategy, automation stacks, governance).

## Medium Tier

**Build**

You can improve this. (Focus: Repeatable workflow habits, tool comparison).

## Beginner Tier

**Notice**

You can do this. (Focus: Recognition, safe first use, plain-language prompts).

NotebookLM

| | [BEGINNER] | [MEDIUM] | [EXPERT] |
|---|---|---|---|
| Output Type | Single Prompt / Checklist | Repeatable Workflow | System Map / Playbook |
| Evidence Type | Simple Demonstration | Process Comparison | Decision Criteria & Metrics |
| Example Application | Personal life or solo creator | Team or workflow integration | Organization-wide ecosystem |

>> DIAGNOSTIC: WHERE ARE YOU RIGHT NOW? DROP "BEGINNER", "MEDIUM", OR "EXPERT" IN THE CHAT.

NotebookLM

# The 60-Minute Masterclass Shift

We cannot cover 26 systems today. But if you master these 5 pillars, you unlock the operating system.

**A** — **P** — **H** — **W** — **Z**

= Awareness (The Start)

= Prompt (The Skill)

= Human (The Filter)

= Wisdom (The Strategy)

= Zero Excuses (The Action)

NotebookLM

[A = AWARENESS]

# AI starts when you notice where help is needed.

Most people start AI the wrong way. They ask, 'What tool should I use?'
should I use?' Start here instead: Where are you stuck? What task takes too long? What feels repetitive? What drains your energy?

**Action Step:** Write down 3 tasks that drain your time each week. Pick the easiest one to test with AI today.

>> DROP THE WORD “AWARE” AND YOUR BIGGEST TIME-DRAINING TASK IN THE CHAT.

NotebookLM

[P = PROMPT]

# Prompts are the new language of leverage.

**Input:**
Write a post about AI.

**Result:**
Generic, robotic, ignorable text.

Bad Prompt, Bad Result.

>>> FAILED vs SUCCESS <<<

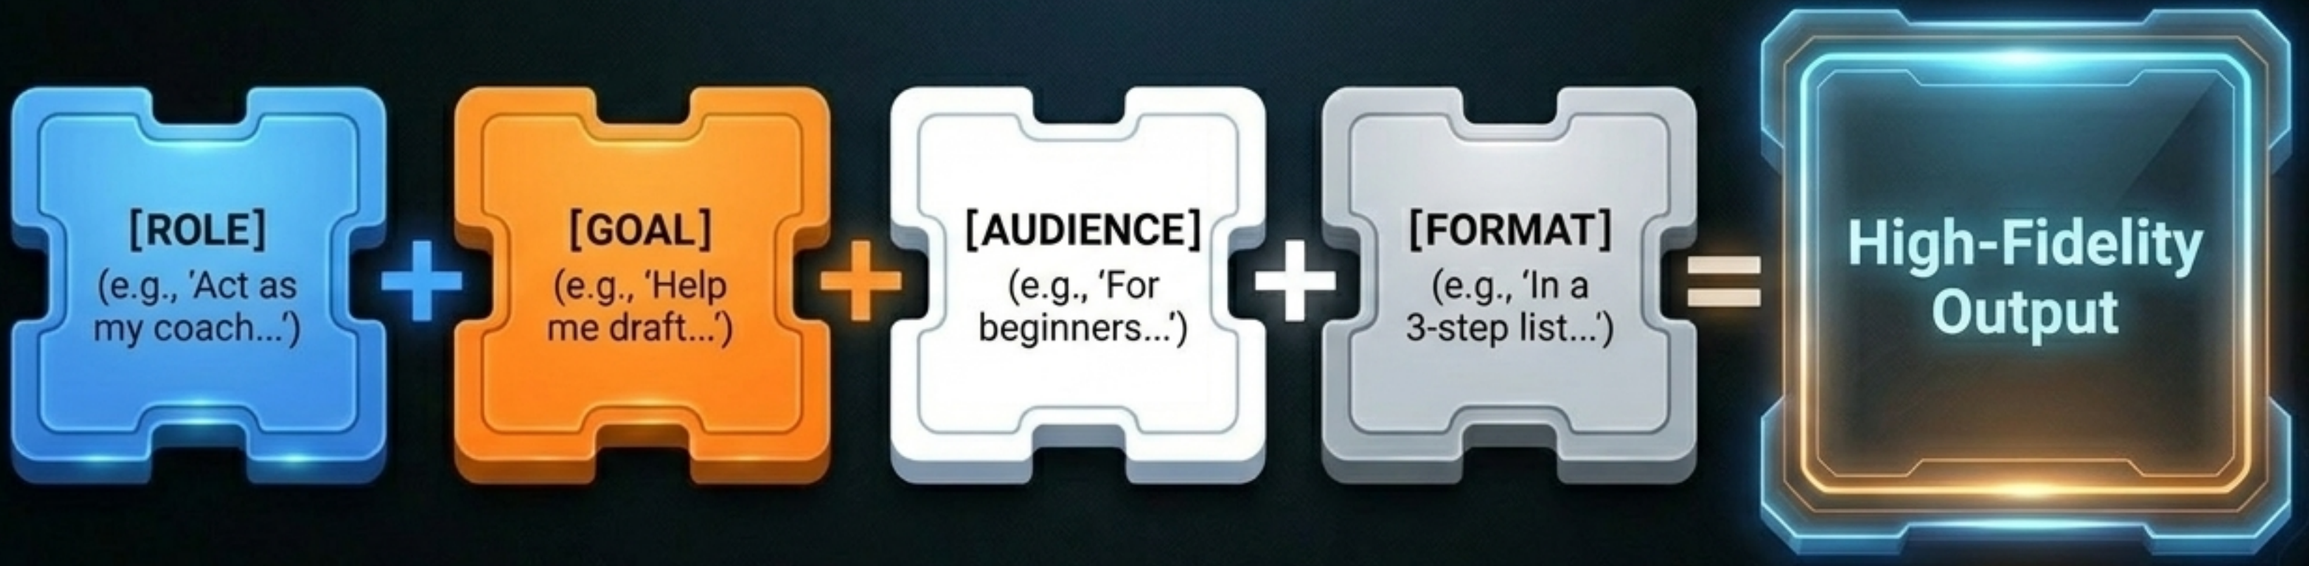

**Input:**
Act as my coach. Help me write a clear caption for beginners nervous about AI. Keep it under 120 words and make it encouraging.

**Result:**
Highly targeted, usable asset.

Good Prompt, Immediate Value.

NotebookLM

# [P = PROMPT]

Role + Goal + Audience + Format = High-Fidelity Output

>> DROP THE WORD “PROMPT” IN CHAT AND OUR TEAM WILL DM YOU 10 BEGINNER TEMPLATES AFTER THE WEBINAR.

NotebookLM

[H = HUMAN]

# AI is the tool. You are the edge.

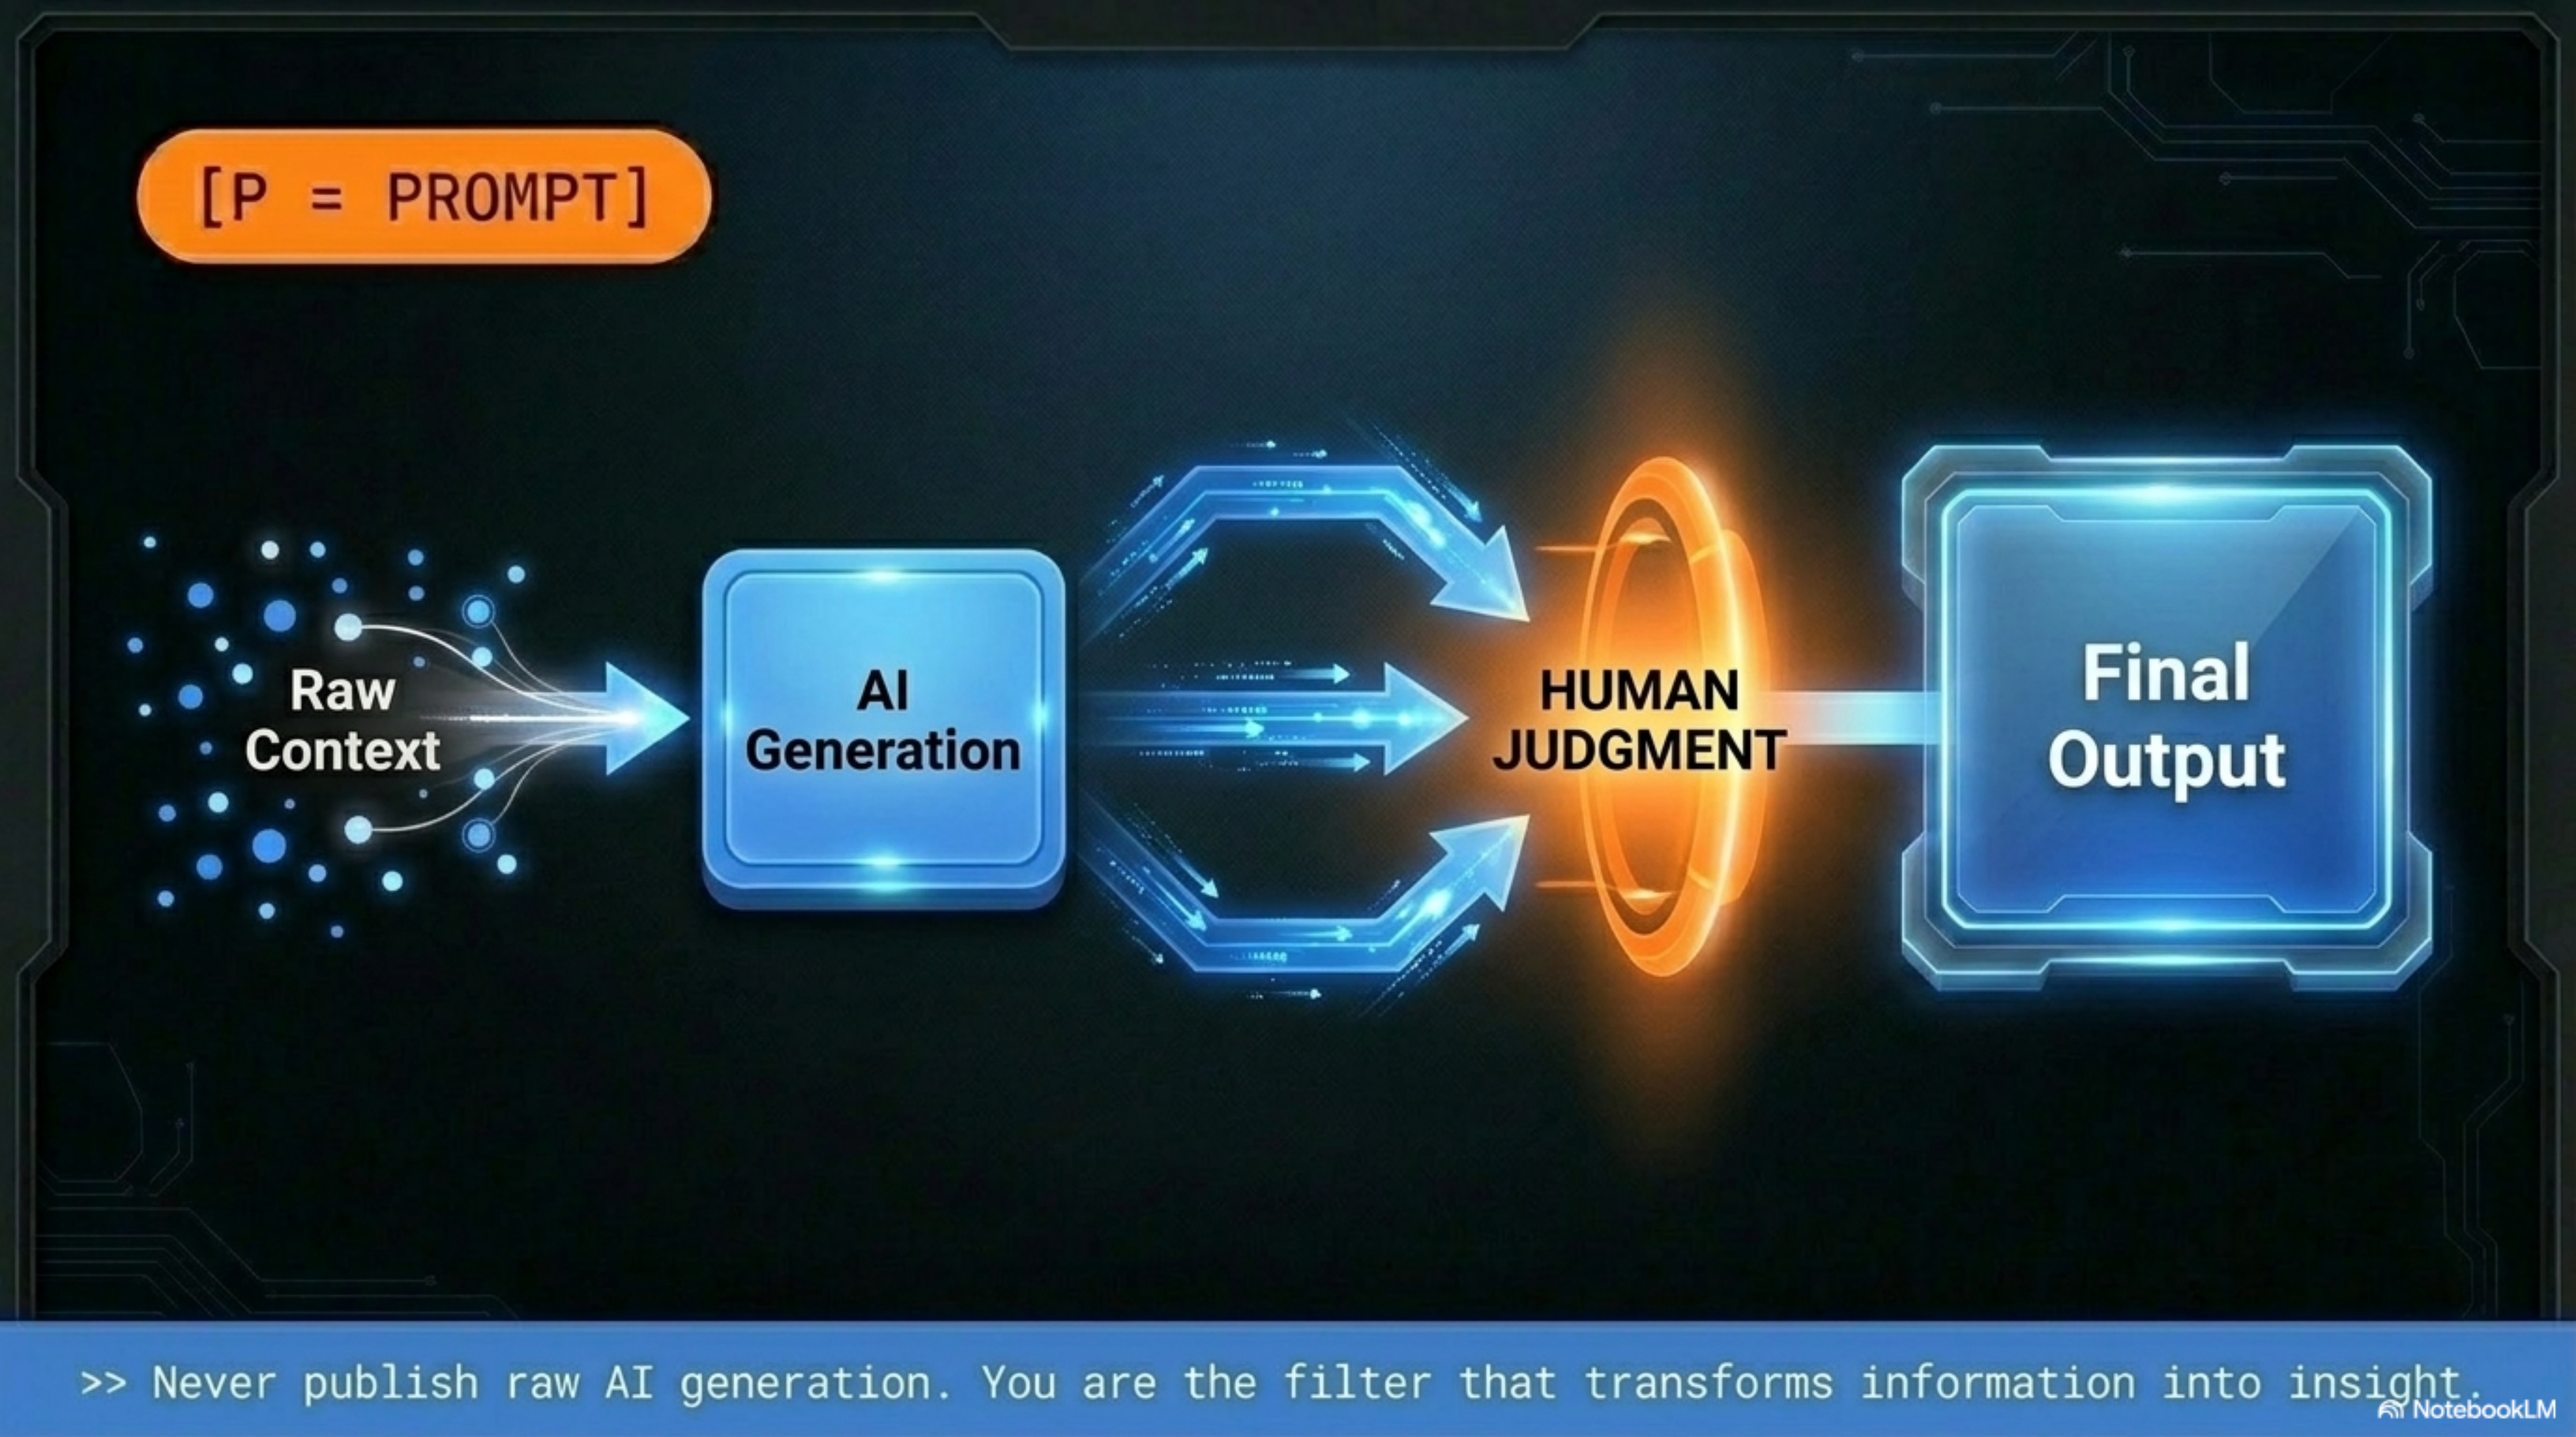

AI can generate words at lightspeed, but it cannot replace your values, your taste, your empathy, or your lived experience. The human part is still where trust comes from.

Use AI for speed, structure, and first drafts. But keep the human part. AI should support your voice, not erase it.

>> DROP "HUMAN" IN THE CHAT IF YOU COMMIT TO ALWAYS EDITING AI OUTPUTS IN YOUR OWN VOICE.

NotebookLM

[P = PROMPT]
Raw Context
AI Generation
HUMAN JUDGMENT
Final Output
>> Never publish raw AI generation. You are the filter that transforms information into insight.
NotebookLM

[W = WISDOM]

# Information is everywhere. Wisdom is rare.

AI provides information.
You provide judgment.

Wisdom is knowing when to use AI and when to step in.

## USE IT

(If it's a structural framework, summary, or data organization).

## EDIT IT

(If it needs your tone, lived experience, or specific brand nuance).

## REJECT IT

(If it lacks empathy, hallucinated facts, or violates trust).

>> DROP "WISDOM" IN THE CHAT ONCE YOU REALIZE SAYING "NO" TO AN AI DRAFT IS A WIN.

NotebookLM

[Z = ZERO EXCUSES]

# Execution is the bridge between inspiration and change.

- You do not need a tech degree.
- You do not need a perfect setup.
- You do not need a big budget.
- You only need 5 minutes and the courage to begin.

**Action Step**: Spend 5 minutes using one AI tool before today ends. Ship one tiny output: an email, a plan, or a summary.

>> DROP "ZERO" IN THE CHAT IF YOU ARE GOING TO TAKE YOUR 5-MINUTE ACTION THE SECOND WE LOG OFF.

NotebookLM

Leverage is not doing more random work. It is using the right support at the right point so your effort goes farther—giving you time back to think, build, and rest.

NotebookLM

# You have the 5 Pillars. Now get the Operating System.

Join the 26-Day Major AI Mindset Challenge.

- What's Included: Daily 5-minute action steps,
- reusable prompt templates, and a private community of learners ([N = NETWORK]).

**The Promise: Move from Beginner to Medium tier in less than a month.**

START DAY 1 NOW →

NotebookLM

# Technology changes. Mindset lasts.

The future rewards those who keep learning.
Your story, your taste, and your experience are your edge.

>> TAG YOUR BIGGEST TAKEAWAY IN THE CHAT. SEE YOU INSIDE THE CHALLENGE.
